The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/596,816	Applicant(s) TIESLER-WITTIG, HELMUT	
	Examiner Thomas M. Sember	Art Unit 2885	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Aida et al '388. Aida et al '388 discloses a headlight with a reflector housing 6 and a front glass 3 which together enclose a headlight inner space, and with a reference surface for defining the position of a gas discharge lamp 5 having a lamp body, and a lamp base (1 and 5a-5d) inside the headlight, wherein the lamp is inserted in a ring 8 connected to the reflector housing 6, wherein the reference surface is at least in part defined by the ring, and wherein the lamp base (1 and 5a-5d) is positioned on a side of the ring opposite to the reflector housing 6, wherein in radiation from the lamp is reflected off of the reflector housing 6 and through the front glass.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 2885

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 17-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Aida et al '388. Aida et al '388 discloses the claimed invention except for the teaching that the lens is pivotable. It would have been obvious to one skilled in the art at the time the invention was made to modify headlight of Aida et al '388 so that the lens 3 is pivotable since such a design is well known for accessing vehicle headlights and thus would have been an obvious engineering design choice.

Response to Arguments

4. Applicant's arguments with respect to claims 1-12 and 16-23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
